THE REPORT  
OF THE  
PRESIDENT OF QUEEN'S COLLEGE, GALWAY,  
FOR  
THE SESSION 1898-99.

---

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

MAY IT PLEASE YOUR MAJESTY.

I have the honour to submit to Your Majesty the following Report on the condition and proceedings of the Queen's College, Galway, for the Session 1898-99.

In the Appendix will be found Tables giving the usual Statistics, an examination of which will show that 26 students entered the College during the Session, being the same number as for the Session 1897-98. While, however, there is no change in the number of entrances, I have to report a decrease in the total number of students attending, this number being 83 as against 91 for the previous Session.

This decrease in the number of students attending the College points to no lack of efficiency or relaxation of effort on the part of the teaching staff. Unhappily, the educational value of the professorial work of the College, in so far as it has an effect on the number of students in attendance, is outweighed and overshadowed by other influences. I must, therefore, refer to the recent successes of past and present students, as furnishing satisfactory evidence of the thoroughness of the work done in the College lecture-rooms and laboratories.

In the Royal University of Ireland, the distinctions gained during 1898 were:—

*Faculty of Arts.*—Exhibitions—1 First Class.  
2 Second Class.  
Honours—3 First Class.  
2 Second Class.

Mr. Hugh Ryan, M.A., gained the high distinction of a University Studentship in Experimental Science, and Mr. Thomas G. Strain was awarded a University Scholarship in Mathematics.

*Faculty of Medicine.*—Exhibitions—1 First Class.  
Honours—1 First Class.  
2 Second Class.

*School of Engineering.*—Exhibitions—1 Second Class.  
Honours—1 Second Class.

Eighteen students graduated from the College, six in the Faculty of Arts, six in the Faculty of Medicine, and six in the School of Engineering.

The following are some of the distinctions recently gained by past students of the College :—

Mr William Kennedy, M.A., was awarded the Madden Prize at the recent Fellowship Examination in Trinity College, Dublin. Mr. John Henry, M.A., Demonstrator of Practical Physics in this College, has just received a Research Degree in the University of Cambridge for experimental investigations in Physics, including published Papers entitled "Experiments on the effect of Ultra-Violet Light on the conductivity of Iodine Vapour," "The Deflexion by Magnetic Force of the Electric Discharge through Gases," and "Experiments on the Motion of the Æther in an Electro-magnetic Field." Mr. Andrew J. Walker, lately Demonstrator of Chemistry in this College, obtained the degree of Doctor of Philosophy in the University of Heidelberg. His Inaugural Dissertation, "Ueber Konstitution und Kryoskopisches Verhalten von o-Cyanphenolen" includes an account of his work in conjunction with Professor Auwers, which appeared in December, 1898, in the *Berichte der Deutschen Chemischen Gesellschaft*. Mr. Walker has just been appointed Lecturer in Chemistry at the Borough Polytechnic Institute, London. Mr. Hugh Ryan, M.A., 1851 Exhibition Scholar of this College, is continuing his experimental enquiries in Chemistry in the University of Berlin. A Paper embodying some of his results, "Ueber einige Amidoketone," appeared in September, 1898, in the *Berichte der Deutschen Chemischen Gesellschaft*. Mr. James M. Hazlett, B.A., obtained a place in the examination for the Civil Service of India; and Mr. James P. Burkitt, B.A., B.E., headed the list at the recent examination for County Surveyorships in Ireland. Mr. Denis Mangan, B.A., formerly Senior Scholar in Ancient Classics of this College, was appointed to an Inspectorship of National Schools in Ireland by competitive examination. Mr. Frederick W. Lyons, B.A., formerly Senior Scholar in Mathematics of this College, was appointed to an Inspectorship in the Imperial Chinese Customs at Swatow. Mr. R. A. McCall, LL.D., Q.C., a distinguished student of this College, was appointed Attorney-General of the Duchy of Lancaster.

On several occasions it has been publicly stated that the students who come to this College are such as are unable to pass the examinations of the Queen's College, Belfast. I have appended a table which I hope will give this statement its proper value, and help those interested to form a true estimate of the work done by the College. In this table will be found a list of the Junior Fellowships, Studentships, Scholarships, Exhibitions and Prizes awarded to students of this College in the Royal University from its opening to the present time. These distinctions were gained in open competition with candidates from the other Irish Colleges, and, in number and excellence, are not such as would be expected from a small college attended by students of inferior ability and attainments.

But, though every year we are able to refer to fresh distinctions gained in Science and Literature, and in the Public Service, the utility of the College as a centre of University Education is not to be measured by these alone. Many, whose names do not appear

in these lists, have gone from us, frequently to other lands, and, by the characters developed here in friendly and intellectual intercourse with their fellow-students of every creed, have done honour to their College.

There is no surer mark of a successful college than the power of inspiring in those who have been educated within its walls an affection and loyalty towards their Alma Mater. It affords me, therefore, great pleasure to be able to report a conspicuous example of this. A distinguished *alumnus* of the College, W. A. Browne Esq., LL.D., has generously transferred to us a sum of £1,359 in 2½ per cent Consolidated Stock, for the purpose of founding and endowing on behalf of and in memory of his wife, Caroline Charlotte Browne, F.R.S., a scholarship in Modern Languages, to be awarded annually. This scholarship will be open for competition in October of the present year, and will, doubtless, prove an incentive to the advanced study of French and German, and add to the already large number of our students who have distinguished themselves in Modern Languages and Literature.

The founder of this scholarship has made provision that the sum transferred shall be held and administered by the College only so long as it shall remain a non-sectarian teaching institution. A reference to the table giving the number and religious persuasions of the students attending the College in each year from its opening, will show that the absence of any marked preponderance of one religious denomination has always characterised it. I may be permitted to express a hope that any further legislation on Irish University education will strengthen its position, and enable it to be worked on the same non-sectarian lines, with increased success and benefit to all sections of the community.

The Students' Literary and Debating Society has had a very successful year under the presidency of Professor R. J. Anderson, M.A., M.D. Two public lectures were delivered during the Session, one by President Starkie, M.A., LL.D., and the other by Professor Sanford, M.A. Both lectures were largely attended by the people of Galway, who have always taken an intelligent and lively interest in the College and its work. A medal for excellence in Oratory and English Composition, lately founded by Sir Thomas Moffett, LL.D., and awarded annually by the President, has done much to develop the working of this Society, and bring it to its present state of efficiency.

I have received the following reports from the Deans of Residences, who have taken the deepest interest in the welfare of the students under their care, and whose gratuitous services have greatly facilitated the maintenance of discipline in the College:—

"The Rectory,

"Galway, 19th June, 1899.

"DEAR MR. PRESIDENT,—I have much pleasure in saying that the conduct of the Church of Ireland students of the Queen's College during the Session 1898-99 has been very good as far as I have been able to observe,

"I remain,

"Yours very sincerely,

"J. FLEETWOOD BERRY."

"The Manse, Galway,  
"23rd June, 1899.

"DEAR MR. PRESIDENT,—I feel that a report from a Dean of Residences to be satisfactory and really useful should deal with the individual students under his care. I hope in future years to furnish you with such a report.

"Speaking generally, the conduct of the students belonging to the Presbyterian Church was satisfactory. The attendance on the regular Sabbath services was beyond the average of past years. A number of the students were members of a Bible Class held on Sabbath morning, and several took an active part in the work of the Sabbath School. A large number attended the meetings of the Christian Endeavour Society, and a branch of the Students' Christian Union was in active operation during the Session.

"I am,  
"Yours very truly,  
"J. COURTENAY CLARKE,  
"Dean of Residences.

"The President,  
"Queen's College,  
"Galway."

"12, Eyre-square,  
"Galway, 15th June, 1899.

"DEAR MR. ANDERSON,—I am happy to say that the report which I have to make of the Methodist students under my care during the past year is satisfactory.

"Believe me,  
"Yours truly,  
"H. J. F. RANSON."

The Library, Museums, and Laboratories have been kept in as satisfactory a condition as the funds at our disposal would allow. But, as the annual grant to the College has not increased with the needs arising from the rapid development of scientific knowledge and methods of research, it is not surprising that we should experience an increasing difficulty in trying to meet the wants of the various departments. On account of the growing demands of the other departments we have been unable to allocate as much to the Library as in former years, so that it has not been kept as well up to date as could be wished.

A new Biological Laboratory is urgently required, the small room which is at present used for that purpose being utterly inadequate. Demonstrations in Practical Pathology have hitherto been given in the rooms set apart for Practical Physiology and Histology. It is highly desirable that there should be a separate room, with suitable appliances, for this purpose.

Testified by Your Majesty's dutiful servant,

ALEX. ANDERSON, *President.*

6th July, 1899.
